

BREATHE EASY HEALTH EVENT

Discounted & **FREE**
screenings available for
current & former smokers

NOV. 21
8 A.M. - NOON

Daviness Community Hospital
1314 E. Walnut, Washington
(812) 254-9324

As part of the Great American Smokeout, Daviness Community Hospital is teaming up with the Daviness County Tobacco Free Coalition to offer free & discounted screenings to help you stay on top of your lung health! Join us for these important tests designed for current and former smokers.

The event will offer:

- **Free Carbon Monoxide Screening:** This quick test checks for carbon monoxide in your body. This harmful gas can cause serious health issues. **No referral needed!**
- **Free Simple Spirometry Test:** This test measures how well your lungs are working by checking how much air you can breathe in & out. It's an important way to catch early signs of lung disease like COPD (chronic obstructive pulmonary disease). If you've smoked in the past or currently smoke, this test can help identify issues early—before symptoms even appear. **No referral needed!**
- **\$49 Low Dose CT Lung Screening:** This test can detect lung cancer early, when it's most treatable. To be eligible, you must:
 - Be referred by a provider. Contact your provider today!
 - Be aged 40 to 80
 - Smoke currently or have quit within the last 15 years
 - Have a 20 pack-year history of smoking (for example, 1 pack a day for 20 years, or 2 packs a day for 10 years)

TAKE THE FIRST STEP TOWARD BETTER LUNG HEALTH!

If you're a current or former smoker, **early detection is key** to maintaining good health. These tests are easy, fast, and could help identify issues before they become serious. Daviness Community Hospital offers these screenings year-round, but this is your chance to get them at a discounted rate on Nov. 21 from 8 a.m. to noon. Cash, check and credit cards accepted. Patients must pay for screenings/tests at the time of service. Insurance will not be billed. Call (812) 254-9324 for more information
